Note: ID.5 GTX models include Metallic paint pricing in the final RRP and thus, the ROTR price.

* MY2023 Pre CW48 Production. Only while available stock lasts.

**The maximum electric power determined in accordance with UN-GTR.21 for this vehicle is 220kW and lasts for a maximum of 30 seconds. The power available will depend upon individual driving behaviour and other non-technical factors, however the maximum power for this vehicle requires in particular a temperature of the high voltage battery between 23-50 degrees Celsius and a battery state of charge greater than 88%. However, in order to preserve the usable capacity of the battery as much as possible, it is recommended to set a charging target of 80% for daily operation and use (which can be switched to 100% before long distance journeys for example).

¹This vehicle is a WLTP (Worldwide Harmonised Light-Duty Vehicles Test Procedure) type approved vehicle. More information is available at www.volkswagen.ie/wltp.

²Net to energy amount.

³The specified fuel consumption and emission values are the official figures obtained from tests under standardised EU test conditions in accordance with the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test method for measuring fuel consumption (kWh/100km) and CO₂ emissions and are correct at the time of print. The above values reflect the standard vehicle excluding additional equipment such as optional extras and accessories which may have an effect on the fuel consumption (kWh/100km) and achievable range. WLTP range values for standard vehicles may vary depending on equipment. In practice, the actual range varies depending on driving style, speed, use of convenience/auxiliary equipment, outside temperature, number of passengers/additional load, and topography. To discover exact values please configure your desired vehicle at volkswagen.ie/build. You can discover more about the WLTP at volkswagen.ie/wltp.

⁴State subsidies refer to VRT relief and SEAI Grant for Private Customers, Business/Commercial Buyer State subsidy comprises of VRT relief, all of which are subject to approval. SEAI Grant is not applicable on vehicles with a list price of over €60,000.

⁵All prices (Retail, Delivery and ROTR) are recommended by Volkswagen Ireland and are inclusive of VAT. €1,350 includes optional 'S Pack' ID. Service Plan which can be removed upon request. Maximum Delivery charge with Service Plan removed is €1,000. 'S Pack' ID. Service Plan includes one service, with pollen filter and brake fluid replacement.

⁶Recommended 'On the Road' Retail price.

VRT Bands and rate of Annual Motor Tax are valid as of 1st January 2022 and calculated from the base model WLTP values for model year 2024 cars produced from CW32/2023 onwards. All vehicles with TBC are subject to EU type approval and with that were not available at time of going to print.

Volkswagen IE may change RRP's at any time (this includes where there are changes in government regulation and/or legislation). There may be a delay to any RRP displaying correctly on our materials. Always obtain prices from your chosen authorised Volkswagen retailer.

In accordance with (EU) 2020/740 ("Tire Labeling Regulation"), please visit volkswagen.ie configurator for details relating to the tyres applicable to said vehicles.

Please note every effort has been made to ensure the contents of this publication (including RRP, CO₂, fuel consumption and technical information) were accurate and up-to-date at the time of going print 7th August 2023. Volkswagen Ireland reserves the right to change specification, prices and withdraw products from sale without notice. Any such alternations will be notified to Volkswagen Retailers at the earliest opportunity. Please consult your local Authorised Volkswagen retailer for the latest product information.

3 Years Tyre Insurance covers tyres that are damaged by an Insured Event. Exclusions do apply. For more information on general terms and conditions, please click here <https://www.volkswagen.ie/en/owners-and-users/wheels-and-tyres.html>

Effective from 7th August 2023, for production from CW32/2023 onwards. All prices include VAT and VRT. Prices and specifications are subject to change without notice.

ID.5 Business continued

From €63,185¹

77kWh Battery
530km Range

Functional Equipment

- » Lane keeping system 'Lane Assist'
- » 'Keyless Start' without SAFELOCK
- » Forward Collision Warning 'Front Assist'
- » Car 2X Technology car-to-car wireless information transfer
- » Over-the-air updates
- » Adaptive cruise control ACC stop & go incl. speed limiter
- » Wireless App Connect (Android Auto & Apple CarPlay)
- » We Connect Plus
- » Park Distance control - warning signals for obstacles in front and rear
- » Dynamic Road Sign Display
- » eCall emergency call service
- » Natural voice control
- » Driving Profile Selection
- » Rain Sensor
- » Digital Instrument Cluster with Gear Selector on steering column
- » Automatically heated washer nozzles in front
- » Diversity antenna for FM reception
- » Digital Radio Reception DAB+
- » Tool Kit
- » Tyre Pressure monitoring system
- » Split folding back rest with rear centre armrest and load through hatch

Safety

- » Driver's and front passenger's airbag with front passenger deactivation
- » Curtain and side airbag in front, with center airbag
- » ISOFIX anchorage points for two child seats on rear and front passenger seat
- » Safety-optimised front head restraints
- » 3 rear headrests, all lowerable
- » 3-point seat belts front with seat belt pretensioner
- » 3-point seat belts, rear
- » Warning signal and warning light for front and rear seat belts not fastened
- » Reflectors in all doors
- » Hill start assist
- » Emergency braking with pedestrian and cyclist monitoring
- » Electronic steering column lock
- » Electromechanical speed-sensitive power steering
- » Electronic Engine Immobiliser
- » Electric mechanical Brake Booster
- » Electronic engine sound between 0-30km/h
- » Oncoming vehicle braking when turning and swerve support
- » Driver Alert System
- » First Aid Kit and Warning Triangle

Assistance Package

- » Rear view camera
- » IQ. Light "Eye Technology" welcome scenarios
- » Intelligent Park Assist
- » "Keyless Access Advanced" locking and starting system
- » Illuminated door handles
- » Anti-Theft alarm
- » Proactive occupant protection system

Comfort Package

- » Leather-wrapped multifunction steering wheel, heated
- » Heated front window washer nozzles
- » Rain sensor
- » Noise and heat insulating glass windscreen
- » Heated front seats
- » Centre console with illuminated storage compartment and roller blind, and two cup holders with exchangeable inserts
- » 2 45w USB-C interfaces in front, 2 USB-C charging ports in rear with increased charging performance
- » Air Care Climatronic air conditioning with enhanced air filter,

Combined CO2 emissions, g/km	0	0	0

* The maximum electric power determined in accordance with UN-GTR.21 for this vehicle is 220kW and lasts for a maximum of 30 seconds. The power available will depend upon individual driving behaviour and other non-technical factors, however the maximum power for this vehicle requires in particular a temperature of the high voltage battery between 23-50 degrees Celsius and a battery state of charge greater than 88%. However, in order to preserve the usable capacity of the battery as much as possible, it is recommended to set a charging target of 80% for daily operation and use (which can be switched to 100% before long distance journeys for example).

¹VRT Bands and rate of Annual Motor Tax are valid as of 1st January 2022 and calculated from the base model WLTP values for model year 2024 cars produced from CW32/2023 onwards. All vehicles with TBC are subject to EU type approval and with that were not available at time of going to print.

²These are average charging times that can vary depending on certain conditions, such as temperature.

The specified fuel consumption and emission values are the official figures obtained from tests under standardised EU test conditions in accordance with the Worldwide Harmonized Light Vehicles Test Procedure (WLTP), a more realistic test method for measuring fuel consumption (kWh/100km) and CO₂ emissions and are correct at the time of print. The above values reflect the standard vehicle excluding additional equipment such as optional extras and accessories which may have an effect on the fuel consumption (kWh/100km) and achievable range. WLTP range values for standard vehicles may vary depending on equipment. In practice, the actual range varies depending on driving style, speed, use of convenience/auxiliary equipment, outside temperature, number of passengers/additional load, and topography. To discover exact values please configure your desired vehicle at [volkswagen.ie/build](https://www.volkswagen.ie/en/build). You can discover more about the WLTP at [volkswagen.ie/wltp](https://www.volkswagen.ie/en/electric-cars/e-mobility-tools.html). To calculate your estimated driving range please visit <https://www.volkswagen.ie/en/electric-cars/e-mobility-tools.html>

In accordance with (EU) 2020/740 ("Tire Labeling Regulation"), please visit [volkswagen.ie](https://www.volkswagen.ie) configurator for details relating to the tyres applicable to said vehicles

Please note every effort has been made to ensure the contents of this publication (including RRP, CO₂, fuel consumption and technical information) were accurate and up-to-date at the time of going to print 7th August 2023. Volkswagen Ireland reserves the right to change specification, prices and withdraw products from sale without notice. Any such alternations will be notified to Volkswagen Retailers at the earliest opportunity. Please consult your local Authorised Volkswagen retailer for the latest product information.

Grants & Incentives

Grants

		Private	Commercial
VRT REBATE	VRT relief is available for battery electric vehicles. The VRT relief for Battery Electric vehicles is tapered by 50% for every €1 for vehicles with an OMSP over €40,000, so that no amount of relief is available for BEVs with an OMSP value of over €50,000	■	■
SEAI GRANT	€3,500 available off the RRP for private use <i>Note: SEAI applications made from 01.07.2021 are only applicable for ID.5 models where the final invoice price is less than €60,000</i>	■	—
HOME CHARGER INSTALLATION GRANT	€600 rebate following installation and signoff by SafeElectric registered installer	■	■

Incentives

		Private	Commercial
CHARGE POINT MAP	ESB eCARS manage a free app allowing users to identify charge points and their availability https://www.esb.ie/our-businesses/ecars/charge-point-map	■	■
WE CHARGE	Reduced price tariffs for ID.5 customers.	■	■
TOLL FEES	From July 2018-2022 there is an Electric Vehicle tolling incentive - this will provide savings of up to €500 per annum	■	■
0% BENEFIT IN KIND (BIK)	Battery Electric vehicles used as Company cars are fully exempt from BIK for 3-5 years, <i>Note: It is important to get the advice from your accountant or tax adviser to ensure that you are eligible in advance</i>	—	■
ACCELERATED CAPITAL ALLOWANCE	It allows companies to deduct the full cost of such equipment from their taxable profits in the same year of purchase. <i>Note: It is subject to the same rules as the standard plant & machinery wear and tear allowance</i>	—	■
FREE/REDUCED PARKING	Some local authorities allow for free parking when charging	■	■

■ Standard — Not available

We Charge

We Charge Benefits

- » Reduced tariffs for ID.5 customers
- » Simple registration with your Volkswagen ID account
- » Search and find public charging points
- » Pre-planning tours with charge stops
- » Starting and stopping charging processes
- » Easy management of charge cards & tariffs
- » Full cost control through price transparency for charging points
- » ID. Charger Connect/Pro management and remote control

IONITY

With IONITY, you have the freedom to go, and the power to be spontaneous. Europe's leading, high power charging network for electric vehicles (EVs) means only stopping when you want to stretch your legs – and the confidence to travel across Ireland.

- » 6 charging stations along major motorways in Ireland
- » Average 120 km to the next IONITY charging station
- » An average of 4 - 6 charging points per station
- » ID.5 has a charging capacity of up to 135 kW and can charge from 5% to 80% in only 29 minutes with IONITY
- » A record-setting, high-speed charging capacity of up to 350 kW DC (depending on capacity of car)
- » An experience so intuitive you already know how to use it.
- » Fully integrated with We Charge
- » All IONITY stations are powered by 100% renewable energy
- » Use of the European CCS charging standard, achieving the widest compatibility across electric vehicles past, present, and future
